WE ARE HERTFORDSHIRE DENTAL GROUP

- The first choice for thousands of Hertfordshire residents.
- Dedicated to making your dental experience safe and exceptional.
- Consistently 5-star rated by our patients.

YOUR DENTAL HEALTH MATTERS

We believe in offering our patients a high level of dental care without unexpected dental fees every time they visit us.

Our tailor-made plans allow patients to spread the cost of dental health examinations and hygiene visits with a simple monthly payment.

PERFECT YOUR SMILE

If you are looking to transform your smile, we provide a complete range of treatment options to help you achieve the smile of your dreams.

COSMETIC DENTISTRY

Do you feel self-conscious about your smile? Maybe dark or discoloured teeth, old amalgam fillings, chips or gaps in your front teeth make you feel self-conscious when smiling?

Our cosmetic dentists are brilliant at what they do and work hard to help

each and every one of our patients achieve the smile of their dreams.

COMPOSITE BONDING

A minimally invasive procedure which can disguise and repair minor imperfections, such as chips or small gaps. Our techniques and the materials we use are kind to your tooth enamel. There's no drilling, little preparation work and no taking of impressions, which means treatment is quick and often carried out over the course of just one or two appointments.

PORCELAIN VENEERS

Thin, ceramic covers are applied to the surface of the tooth. They can be fitted to a single tooth or to multiple teeth and can quickly correct a range of cosmetic issues, such as discoloured teeth, uneven

or damaged teeth and even teeth with large gaps between them.

TEETH WHITENING

We use a state-of-the-art whitening system called Enlighten. Enlighten is the only whitening system in the world to guarantee their results and achieve the whitest shade of natural tooth enamel.

MERCURY-FREE WHITE FILLINGS

If you are someone who has darker coloured fillings, these can be replaced with modern composite materials to help improve the cosmetic appearance of your smile.

WANT TO KNOW MORE ABOUT COSMETIC DENTISTRY?

Schedule a video consultation, request a call back or book a consultation.

The Invisalign® System is a virtually invisible treatment that straightens teeth using a series of custom-made removable aligners.

Discover the brilliance of Invisalign® and achieve your dream smile discreetly

Clear

Hardly anyone will notice you are straightening your teeth.

Comfortable

Custom-made, smooth and comfortable to wear.

Removable

Life continues as normal – from brushing and flossing, to eating whatever you like.

Fast

Get a straighter smile in as little as 4 months.

CONSIDERING TEETH STRAIGHTENING?

Straighten your smile discreetly with no fixed braces or wires.

Invisalign® clear aligners are an extremely accurate and state-of-the-art teeth straightening solution, treating simple and complex cases, from gaps and crowding, to teeth that don't bite together properly.

Tailor-made to your teeth and designed for comfort, they are removable to fit in with your lifestyle, so you'll be able to remove them to eat, drink and brush your teeth.

IS INVISALIGN® TREATMENT RIGHT FOR YOU?

For many people, the answer is yes. To find out more, schedule a video consultation, request a call back or book a free consultation.

WE'VE TRANSFORMED 1000'S OF SMILES WITH INVISALIGN®

Our Invisalign® dentists are renowned for the beautiful, consistent results they achieve. They are some of the most experienced in Hertfordshire with a 5-star reputation for using Invisalign® to transform the smiles of patients with mild to complex teeth straightening issues.

Invisalign® Provider

INVISALIGN® TREATMENT IS AS STRAIGHTFORWARD AS IT IS ADVANCED

1. Using iTero, our intra-oral scanner, we create fast, precise, 3D digital images of your teeth to enable accurate, efficient planning.
2. See your new smile before treatment begins, including the exact movements of your teeth.
3. During treatment, you'll receive a series of aligners to wear every day and change at home – on average every 1-2 weeks.
4. Visit us every 6-8 weeks to monitor progress and receive new aligners.

FINANCE AVAILABLE

We offer finance options should you require them, including

0% APR
over 10 months.
Subject to status.

MISSING TEETH, LOOSE DENTURES? WE CAN HELP

If you have missing teeth or have loose dentures, then implant dentistry is likely to be the answer to your problems.

Dental implants provide a long-term solution that allows you to live life without having to think about your teeth.

They look, feel and function like natural teeth. They even help to prevent further tooth and bone loss in the jaw, and the unwelcome ageing effects associated with missing teeth.

WE'RE HERTFORDSHIRE'S LEADING DENTAL IMPLANT CENTRE

Our team comprises some of the most respected dental implantologists in Hertfordshire. They are highly qualified practitioners

with extensive experience in all areas of dentistry and oral surgery, conducting complex treatments every day.

"Patients who choose dental implants often tell us how they have improved their general self-confidence and completely changed their lives for the better."

Dr Simon Oldham
PRACTICE PRINCIPAL
GDC No: 75960

WHY IMPLANTS ARE THE BEST SOLUTION

A dental implant represents remarkable value as a long-term investment in your oral health. But the immediate benefits are what bring most people to choose implants:

- Implants offer everything you could wish for: reliable outcomes, low risk and aesthetic excellence.
- The procedure is straightforward, with little downtime.
- They halt the process of deterioration in oral health that follows tooth loss.
- They restore the stability of your teeth, gums and jawbone.
- Outstanding cosmetic and functional results, indistinguishable from natural teeth.
- Guaranteed to restore your confidence

FINANCE AVAILABLE

We offer finance options should you require them, including

0% APR
over 10 months.
Subject to status.

IF YOU HAVE BEEN WEARING DENTURES FOR A LONG TIME, THE RELIEF OF HAVING FIXED TEETH AGAIN WILL BE CONSIDERABLE

In the majority of dental patients, conventional dental bridge solutions only last up to ten years, even with proper care. Although dental implants may require occasional adjustments, they can offer long term success when properly placed and cared for.

EAT YOUR FAVOURITE FOODS AGAIN

Only people with false teeth or dentures will truly understand the difficulties associated with eating certain types of food. Dental implants allow you to taste and enjoy most foods, giving you back the ability to bite naturally and not feel anxious that your dentures are going to cause you problems.

DENTAL IMPLANTS REALLY CAN CHANGE YOUR LIFE

We're proud to have helped many dental patients change their life for the better. If you find yourself staying at home because of your teeth, feel uncomfortable in public and embarrassed because your smile looks different, dental implants can change your life.

WANT TO KNOW IF DENTAL IMPLANTS COULD BE RIGHT FOR YOU?

Book a free implant consultation and discuss the best option for you.

An implant consultation gives us the opportunity to meet you and discuss your dental concerns and assess your suitability for implant supported crowns and bridges, implant retained dentures or same day dental implants and the financial investment involved.
